Remarks
<ul style="list-style-type: none"> • Crew in transit at VHHH (remain on board) is exempted from the above requirements. • Crew repositioning as passengers on commercial flights (not on GD/uniform, with an exemption letter endorsed by HKBAC) are subject to the same requirements above. • The Department of Health may cancel an exemption granted to crew member if the exemption conditions are breached. Non-compliance will result in the mandatory quarantine of the crew member for 21 days. • Please remind your crew members to keep physical copies of any Letters of Certification and test reports (if applicable) with them to present to Department of Health staff on arrival.
<p>1. Those without a letter indicating he/she is a local or non-local based crew will be treated as a non-local based crew</p>
<p>2. The negative result of SAR-COV-2 nucleic acid test must be done at an ISO15189-accredited laboratory or a laboratory recognized by the Government where the laboratory is located with the specimen collected within 48 hours prior to boarding the flight to Hong Kong for duty. The Operator should declare that on a letter of certification (Template). The crew is required to present the test report and the letter of certification issued by the operator to staff of DH when he/she enters HK.</p>
<p>3. Use of public transport including MTR, airport shuttle train and taxis is prohibited. Crew must proceed via Arrival Hall B to the Limousine Lounge to board their point-to-point transport. The arranged vehicle must have AAHK Landside Prohibited / Restricted Zone Permit and Travel Industry Vehicle (TIV) Permit, to access the Limousine Lounge.</p>

4. The crew member concerned have completed a COVID-19 vaccination course 14 days before their duty flight and the COVID-19 vaccine used is included on the list of vaccine as published on the Government's [COVID-19 thematic website](#). Crew member should present a valid vaccination record to Department of Health upon their arrival.

Crew hotel

The hotel chosen for crew self-isolation must be notified of the arrangement and is required to monitor crew compliance to self-isolation measures. Violations should be reported by the hotel to the operator and the responsible government department.

Crew operate turnaround flights (with no inbound passengers)

On condition of any of the following, crew who have served on a turnaround passenger flight will not be deemed to have stayed in any port(s) outside Hong Kong (and will not be subject to the self-isolation arrangement upon arrival in Hong Kong before entering the local community), if the crew member concerned:

- i.) Did NOT leave the aircraft during stopover at any port(s) outside Hong Kong throughout a duty flight, or;
- ii.) Only temporarily left the aircraft for necessary technical and operational tasks, and remained at the airside of the airport concerned with no direct physical contact with local ground staff during stopover at any port(s) outside Hong Kong throughout a duty flight.

Nevertheless, turnaround passenger flights between Hong Kong and any foreign port(s) outside China may be performed ONLY on the condition that there will be no inbound passengers, in order for the air crew concerned to be deemed as turnaround crew not subject to the self-isolation arrangement upon arrival in Hong Kong.

The operator should declare on a letter of certification ([Template](#)) that the crew members concerned have NOT left the aircraft during stopover at any foreign port(s) outside China throughout a duty flight and the flight the crew operated was a passenger flight with no inbound passengers. The air crew concerned will be subject to the "Test and Hold" arrangement, enhanced regular testing and Medical Surveillance upon arrival in Hong Kong. Without clear declaration or when there is doubt on travel history, the crew may be put under a more stringent measure.
